Zon Beachside  
1894 S. Patrick Dr.  
Indian Harbour, FL. 32937

Zon hired PondFather Water Features to design and assist their staff installing a stunning, well planted water feature for their residents to enjoy. This is a brand-new water feature started up in mid-June this year but it looks like it's been there for years because of the design, lichens rock and aquatic plantings. Full wheelchair access is from a wide boardwalk that bridges over a dual stream to provide many great viewing points for their residents. Zon opened in 2016 with 84 units but 31 new resident apartments have just been added to this facility, which also has a worship center, movie theater, ballroom and a butterfly garden.

## Your Serenity Awaits...

Did you see something you like on the tour?  
Are you inspired by new ideas for your space?
